PROFESSIONAL SUMMARY

Simulation Engineering student at Full Sail University developing skills in C++, object-oriented programming, debugging, and software development. Interested in game and simulation development, with particular interest in racing simulation technology. Seeking opportunities to continue developing my programming and problem-solving skills through academic and professional projects.

TECHNICAL SKILLS

Programming Languages: C++, HTML, CSS

Software & Tools: Visual Studio, Git, GitHub, Microsoft Office

Technical Concepts: Object-Oriented Programming, Classes & Objects, Functions, Loops, Vectors, Input Validation, Debugging, Version Control, Branches, Pull Requests

TECHNICAL EXPERIENCE

Programming Project development | Full Sail University

- Developed a C++ console application using object-oriented programming.
- Implemented multiple classes, functions, vectors, menu systems, and user input validation.
- Used Git and GitHub for version control using commits, branches, and pull requests.
- Tested, debugged, and refined the application throughout multiple development milestones.
- Organized the application across multiple header and source files to improve code structure and maintainability.

PROJECTS

Tyler's Pet Palace | C++ Pet Shop Simulator

Developed a C++ console-based pet shop simulator that allows users to browse multiple categories of pets and purchase animals while managing a customer budget. The application uses object-oriented programming to organize pets, customers, purchasing, and store functionality while incorporating randomized pet selections and a shopping cart system.

Technologies: C++, Visual Studio, Git, GitHub

Repository: <https://github.com/geigertyler25-beep/cos1-project-portfolio.git>

EDUCATION

Full Sail University

Bachelor of Science in Simulation Engineering

Expected Graduation: January 2030

Relevant Coursework:

- Programming Fundamentals
- Object-Oriented Programming
- Software Development
- Version Control

EXPERIENCE (OPTIONAL)

Professional Dog Groomer

- Provide professional grooming services while maintaining animal safety, comfort, and quality standards.
- Communicate with clients to understand grooming requests and provide appropriate recommendations.
- Manage multiple appointments and responsibilities while maintaining an organized daily schedule.
- Apply attention to detail, problem-solving, and time-management skills in a fast-paced work environment.

CERTIFICATIONS (OPTIONAL)

- GitHub Foundations
- Microsoft Learn
- freeCodeCamp
